

Coverage Report: ANC4 and SBA (2018-2022)

The figure above shows the average coverage for ANC4 and SBA indicators for countries grouped by their under-five mortality rate (U5MR) status as either On-track or Off-track towards sustainable development goals. Population-weighted averages account for country size differences using projected births in 2022. Note that data quality and reporting periods vary; hence, conclusions should be considered indicative, not definitive.
